### **Cleveland Airport System Selects Faith Group, LLC as Prime Consultant for Information Technology Master Plan**

**Cleveland, OH — Sept. 28, 2009** — Faith Group LLC, a planning, programming, analysis, and design firm, announced today its selection by the Cleveland Airport System (CAS), which includes Cleveland Hopkins International and Burke Lakefront Airports, to conduct its Information Technology Master Plan.

The plan will embrace the strategic planning goals and develop clear and concise business process improvements coupled with cost effective information technology solutions.

“The goal of the project is to conduct a thorough examination of future airport system needs, identify innovative technology solutions to address those needs, and devise a series of realistic strategies for implementation. Ultimately, the goal is to a technology infrastructure to support our goal to not just meet emerging demand for superior air service, but to surpass the expectations of customers and airline partners,” said Airport Director Ricky Smith.

“The current status of the Airline industry has focused airports on becoming more efficient with resources while striving to keep up with technology demands. As the business process changes, technology systems must evolve to support new demands,” added Faith Varwig, Principal Faith Group LLC.
