# Noise Compatibility Report

2020 Quarter 1  
January - March

---

## Disclaimer

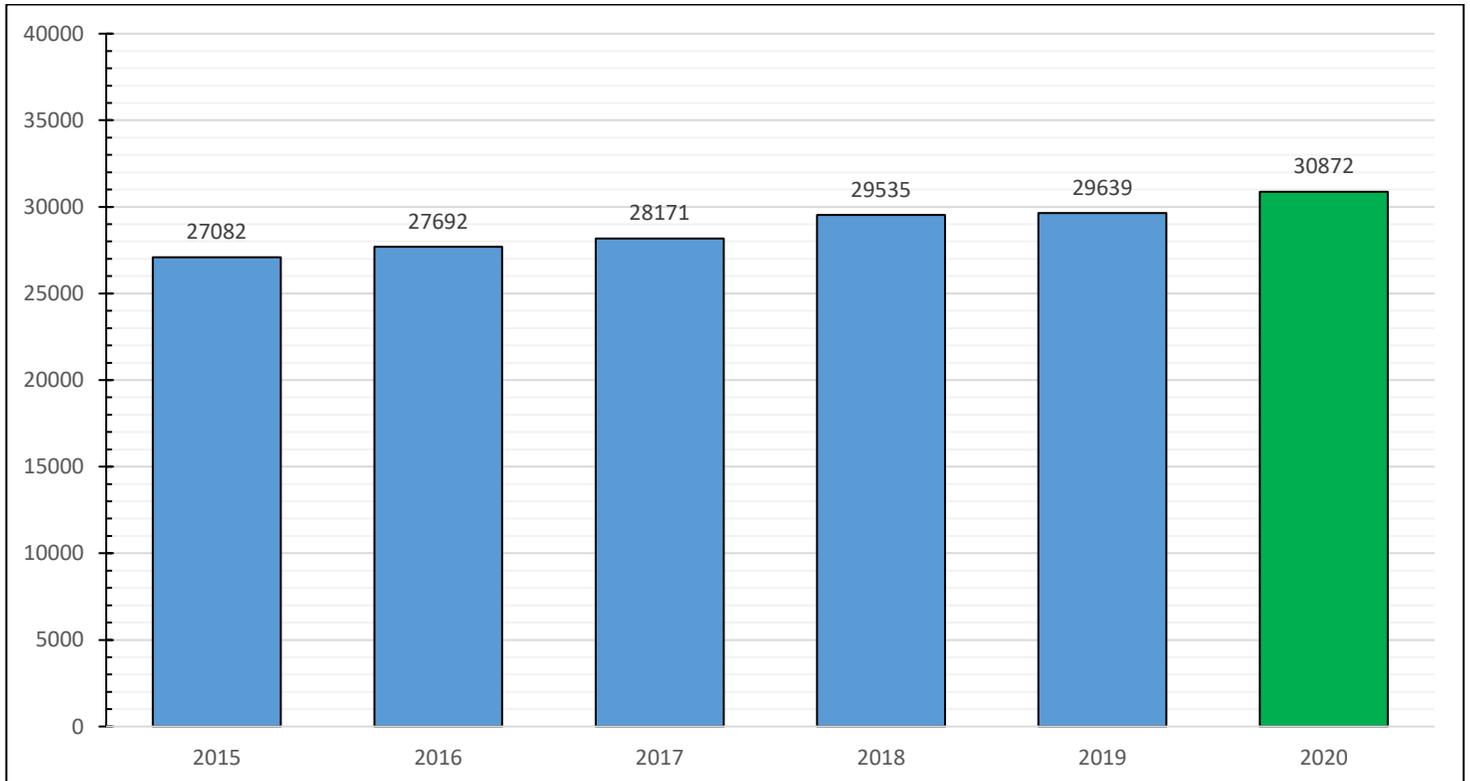

---

- The Noise Compatibility Plan (NCP) at Cleveland Hopkins international Airport (CLE) combines the existing approved Part 150 Noise Compatibility Plan with Air Traffic Control Tower (ATCT) requirements to ensure the safe and expeditious handling of air traffic. While safety is paramount to any aircraft operation, noise sensitivity to the surrounding communities is also of key importance in airport operations.
- CLE is not directly responsible for changes made to flight plans or routes of aircraft.
- Adherence to approved noise abatement measures is voluntary and subject to change based on weather, efficiency, and safety.
- The contents of this report are for informational purposes only. The information cannot be used for enforcement of any Noise Abatement Measure.
- Due to the large volume of data when reporting noise, not all noise and flight information can be shown in this report.
- If more information is needed, please contact the noise hotline and the airport will respond as soon as possible.

# Aircraft Operations

## Cleveland 1<sup>st</sup> Quarter Operations 2015 – 2020

- There were **30,872** operations in the 1<sup>st</sup> Qtr. 2020; this is 0.04% below the 1st Qtr. 2019.

# Fleet Mix

Cleveland Hopkins had **30,872** operations in Quarter 1 of 2020. Here are some of the notable aircraft that CLE welcomes and sends off on a regular basis.

Aircraft	Q1 Total
Boeing 737 Series	3279
Embraer ERJ 145	2945
Bombardier CRJ-900	2882
Airbus A320	2140
MD-80 Series	1023

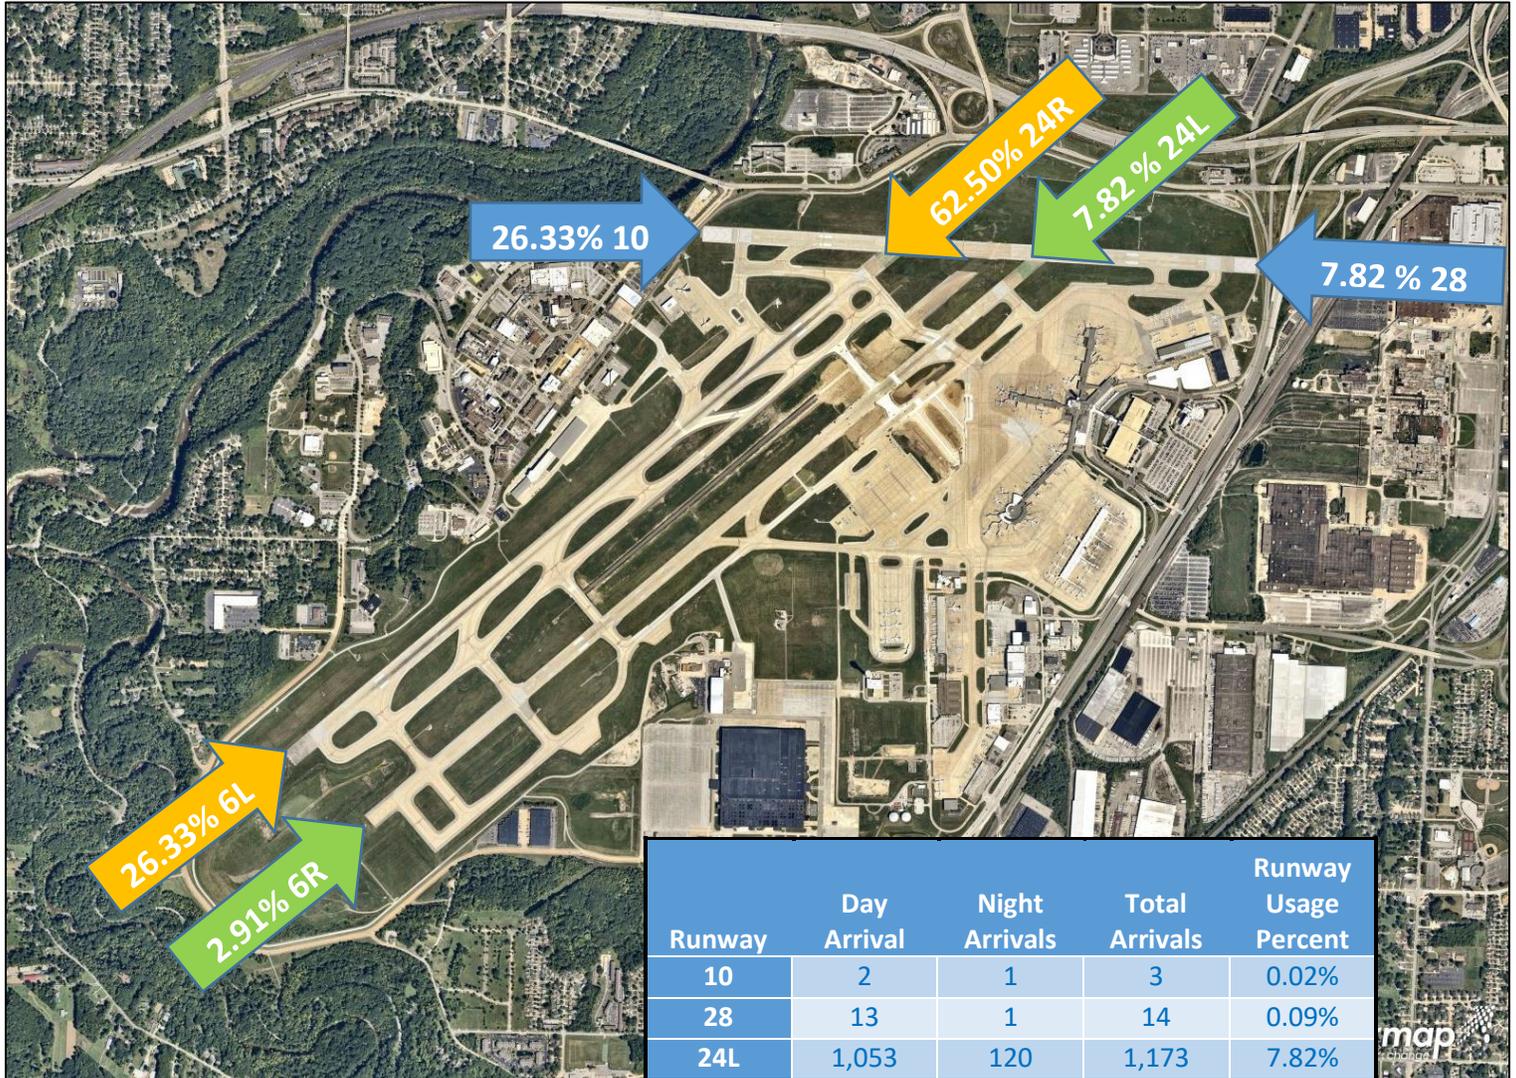

Other notable aircraft operations include:

Aircraft	Q1 Total
Air Taxi	7440
General Aviation	1370
Military	31

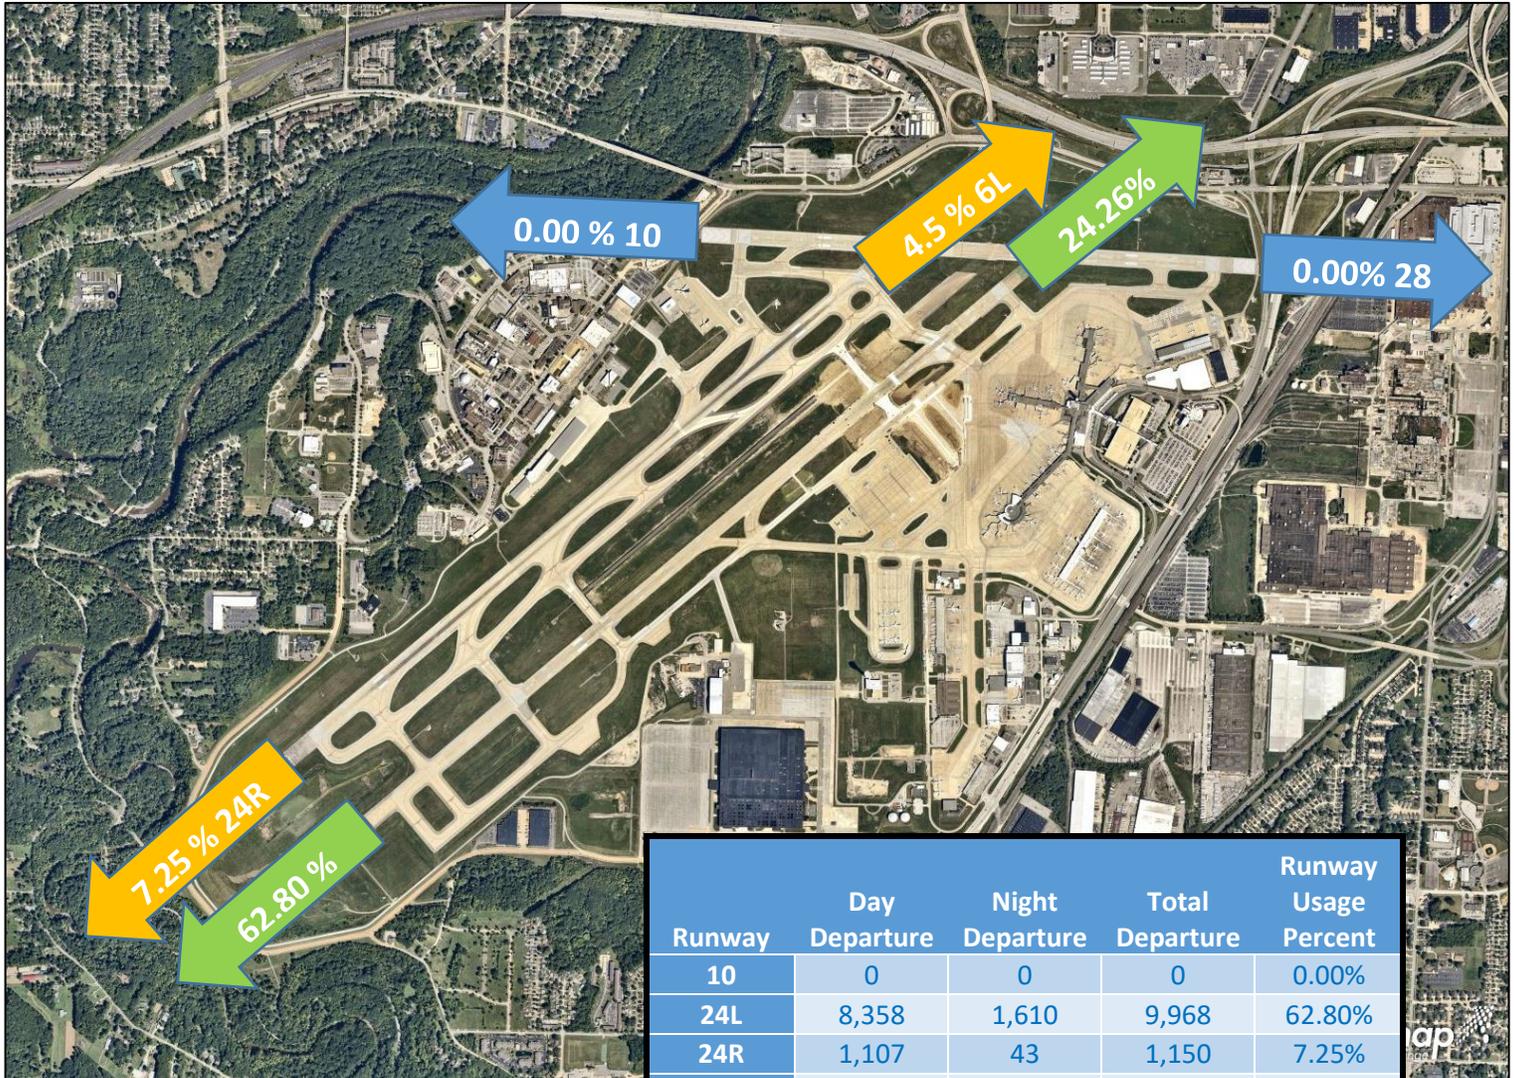

# Runway Use: 1<sup>st</sup> Quarter, 2020 Arrivals

Runway	Day Arrival	Night Arrivals	Total Arrivals	Runway Usage Percent
10	2	1	3	0.02%
28	13	1	14	0.09%
24L	1,053	120	1,173	7.82%
24R	8,293	1,082	9,375	62.50%
6L	3,388	562	3,950	26.33%
6R	385	51	436	2.91%
UNK	45	4	49	0.33%
Totals	13179	1821	15000	100.00%

# Runway Use: 1<sup>st</sup> Quarter, 2020 Departures

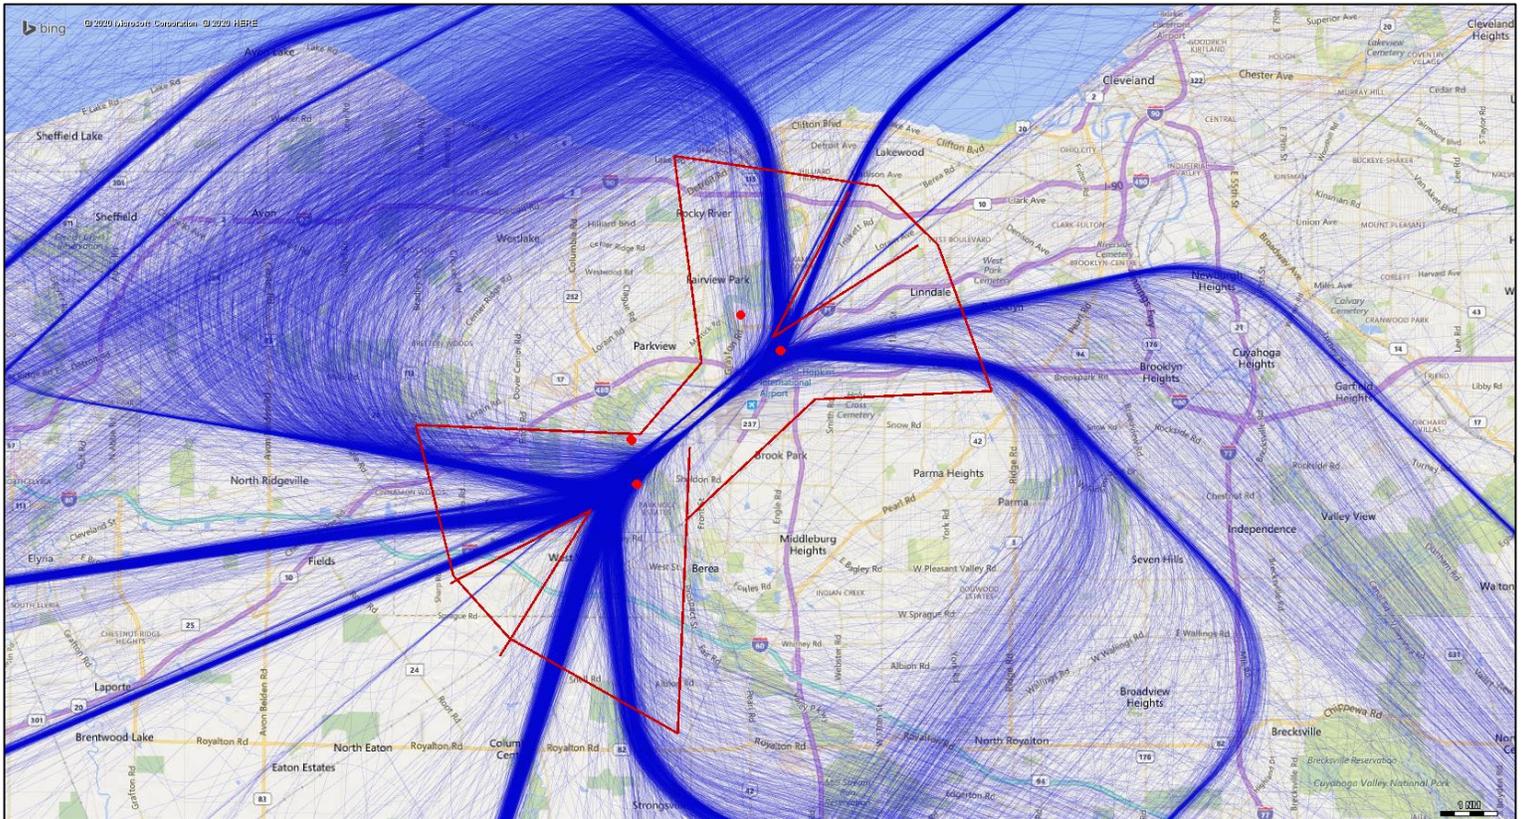

Runway	Day Departure	Night Departure	Total Departure	Runway Usage Percent
10	0	0	0	0.00%
24L	8,358	1,610	9,968	62.80%
24R	1,107	43	1,150	7.25%
28	0	0	0	0.00%
6L	668	46	714	4.50%
6R	3,255	627	3,882	24.46%
UNK	134	24	158	1.00%
Totals	13522	2350	15872	100.00%

# Departure Headings, 1<sup>st</sup> Quarter: Day-time

2020 1<sup>st</sup> Quarter day-time departure flight tracks. Day-time reflects 07:00 am to 10:00 pm.

Of **11,030** departure flights only **630 (6%)** were outside or too low for their respective departure corridor. These corridors represent the airspace through which aircraft depart and arrive. When an aircraft departs, it has a certain path it follows which is a function of altitude and heading.

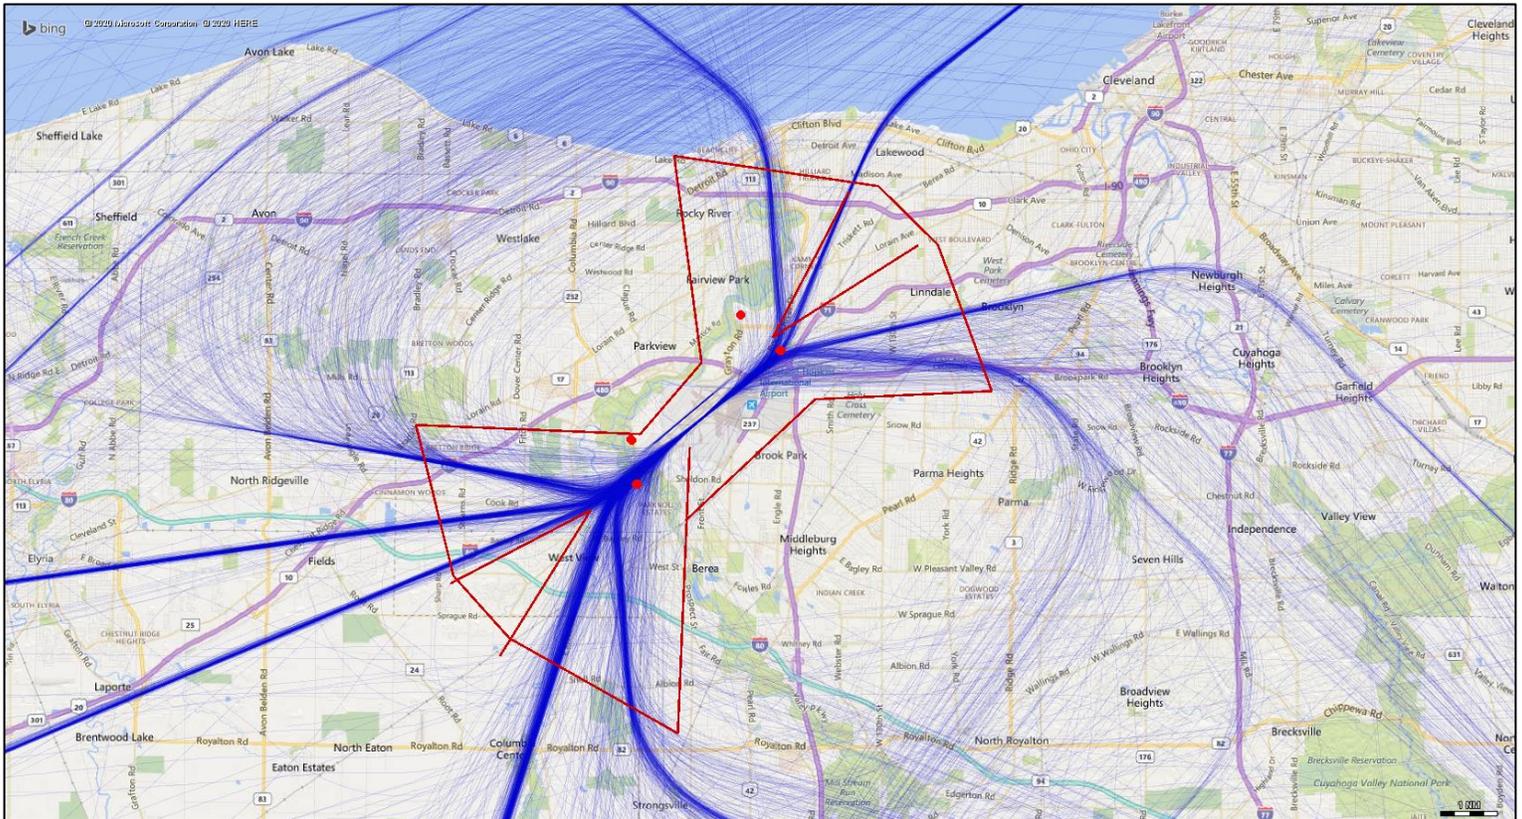

- Key:**
- Flight Tracks —
  - Departure Gates —
  - Noise Monitoring Station ●

# Departure Headings, 1<sup>st</sup> Quarter: Night-time

2020 1<sup>st</sup> Quarter night-time departure flight tracks. Night-time reflects 11:00 pm to 07:00 am.

Of **2073** departure flights only **120 (6%)** were outside or too low for their respective departure corridor. These corridors represent the airspace through which aircraft depart and arrive. When an aircraft departs, it has a certain path it follows which is a function of altitude and heading.

## Key:

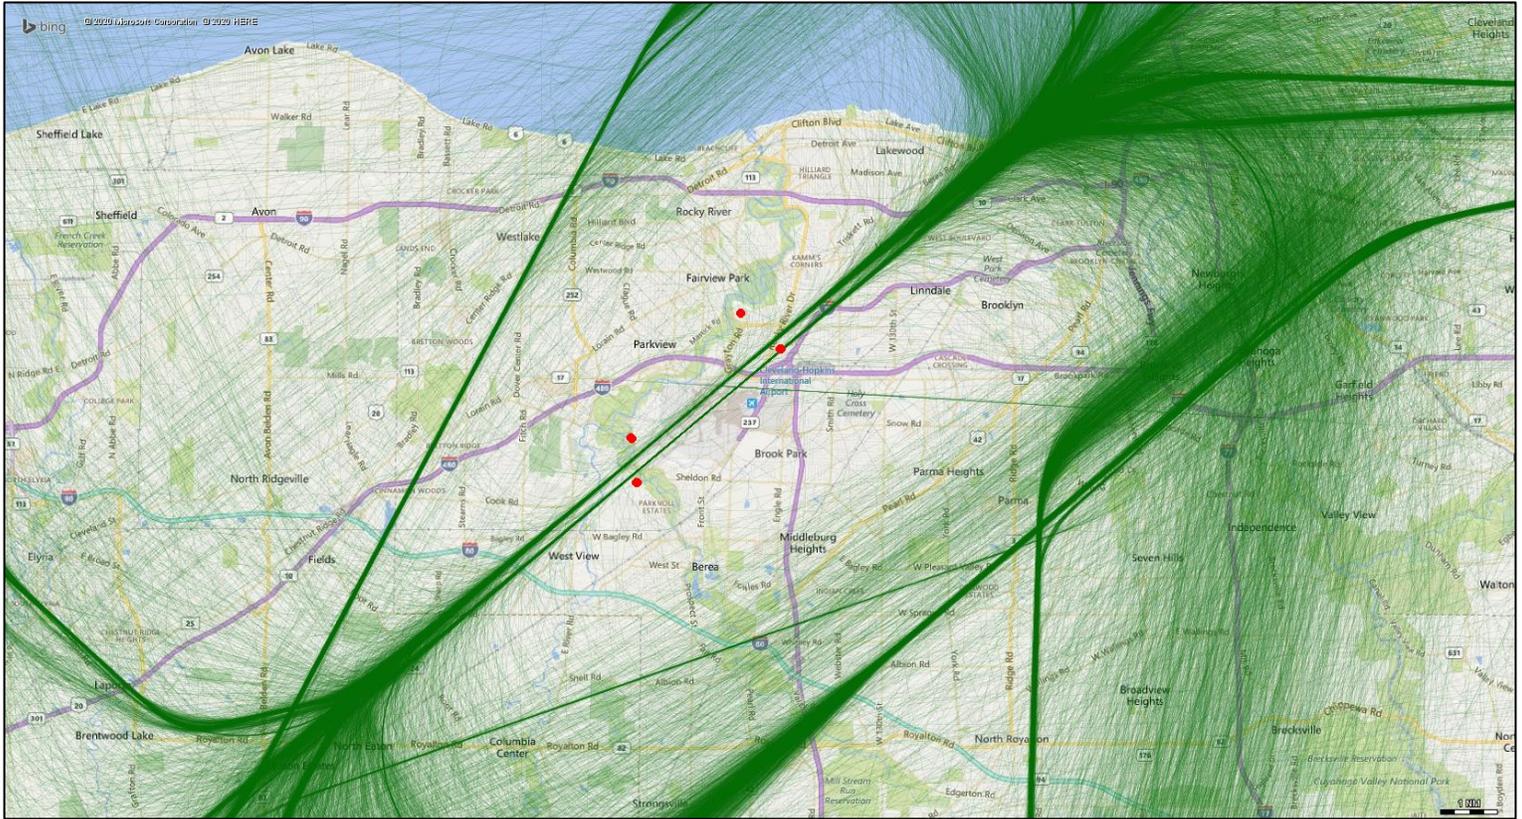

Flight Tracks ———

Departure Gates ———

Noise Monitoring Station ●

# Arrival Headings, 1<sup>st</sup> Quarter

Day-time and night-time arrivals for all of Quarter 1 are shown here. Note that a voluntary measure or the Noise Compatibility Program calls for all aircraft arriving between 10:00 pm and 7:00 pm, wind and weather permitting, to intercept final approach course no closer than four miles before touchdown.

Flight Tracks —————

Noise Monitoring Station ●

# Metroplex: South Flow (Departures)

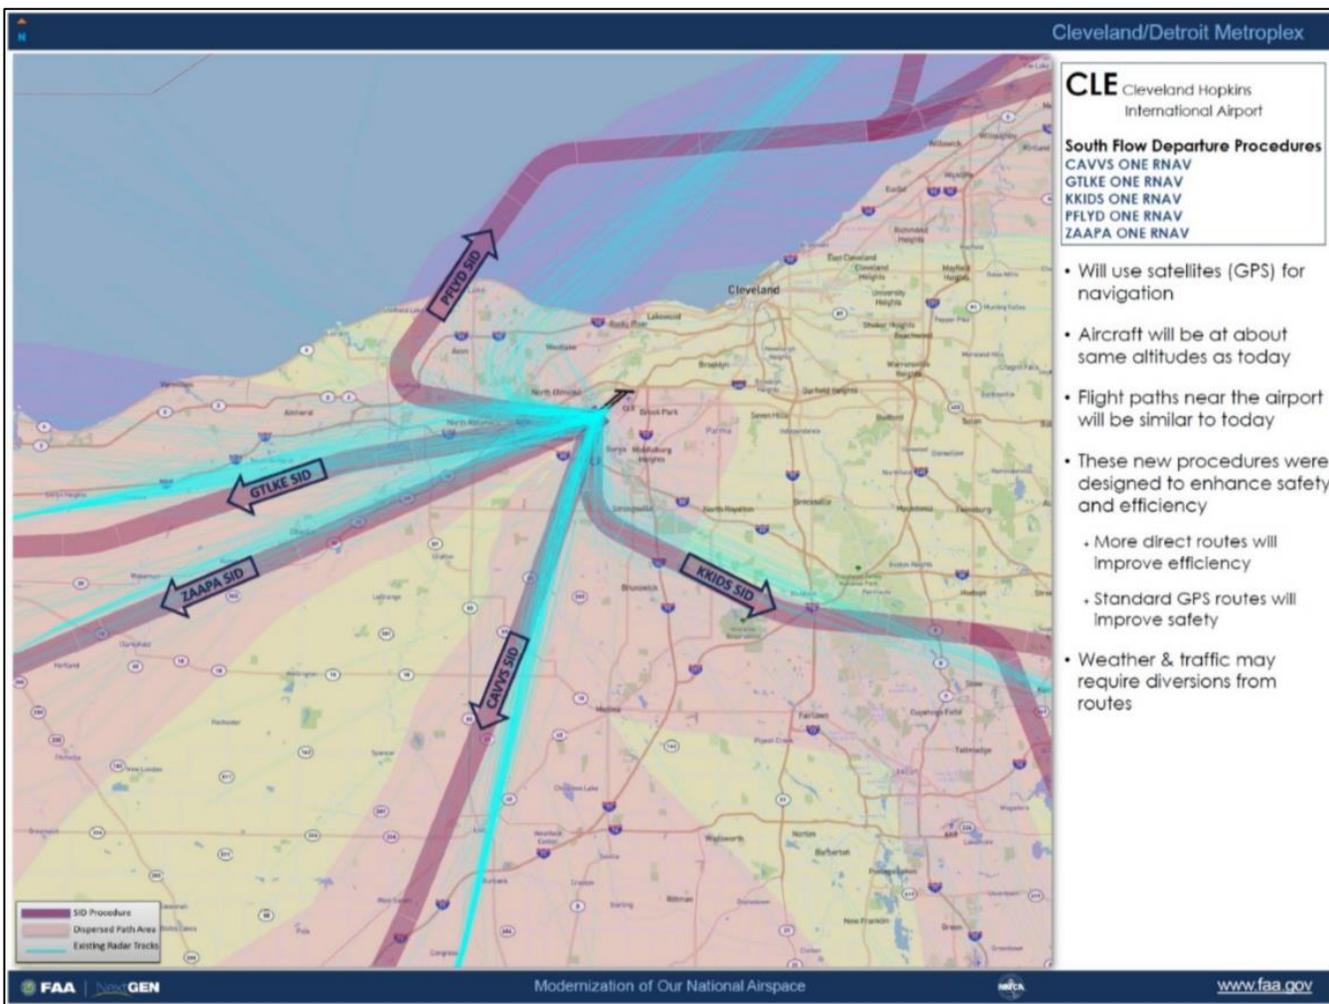

## What is the Cleveland/Detroit Metroplex?

- Starting in mid-September 2018, the Federal Aviation Administration (FAA) made airspace changes in and around Cleveland and Detroit airports. These changes are part of the Cleveland-Detroit Metroplex project, which will bring updated satellite procedures to improve traffic flow.
- In most cases, aircraft will follow the same tracks that they do today. The difference is that aircraft will be using modernized procedures that replace dozens of decades-old conventional air traffic control procedures. In all, the Cleveland/Detroit Metroplex project includes 71 new satellite-based procedures. This project is a key component of the FAA's Next Generation Air Transportation System (NextGen) and a nationwide effort to build the foundation for future safety and efficiency improvements.

# Aircraft Noise: Average DNL by Noise Monitoring Site (NMS)

## What is DNL?

- As FAA's primary metric for aviation noise analysis, the FAA has determined that the cumulative noise energy exposure of individuals to noise resulting from aviation activities must be established in terms of the day-night average sound level (DNL) in decibels (dB). The 65 DNL is the Federal significance threshold for aircraft noise exposure.
- If interested in the Fundamentals of Noise and Sound, please visit: [https://www.faa.gov/regulations\\_policies/policy\\_guidance/noise/basics/](https://www.faa.gov/regulations_policies/policy_guidance/noise/basics/)

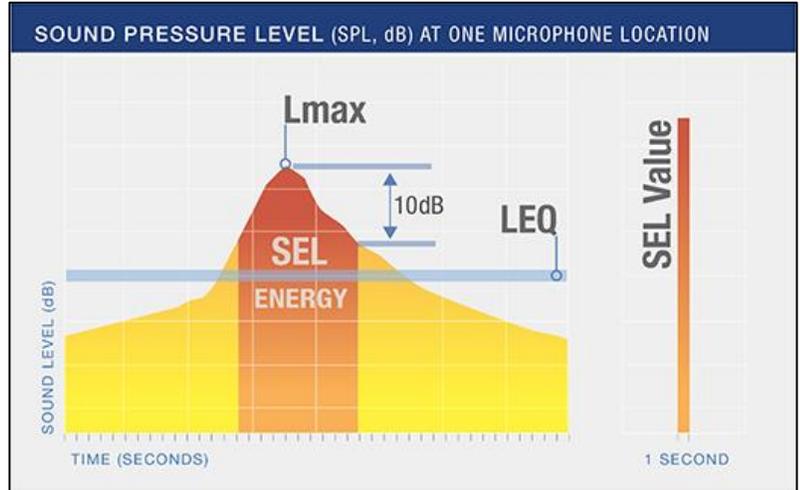

# Top Three Lmaxs at Each NMS

**Lmax** is the single loudest point during a noise event.

**Sounds Exposure Level (SEL)** is a measure that takes into account all noises over the entire duration of the noise event.

**Decibel (db)** is the unit used to measure the intensity of a sound. The human ear hears sound pressures over a wide range. Decibels, which are measured on a *logarithmic* scale, correspond to the way our ears interpret sound pressures.

## Do you have a noise complaint?

---

Please visit the [Symphony PublicVue](https://www.clevelandairport.com/contact) to submit a noise complaint. This site can also be found by going to <https://www.clevelandairport.com/contact> and click on “Learn More” under Noise Complaints. If you prefer to leave a message on our Noise Hotline, please call 216-898-5220. Please be patient while we take time to process your message and respond with the appropriate information.
